

Technique for cable laying and overhead line construction

- Energy cable laying up to 680 kV
- Fibre optic, mini and micro cables
- Cable winding and length measuring
- Overhead line construction up to 110 kV
- Seminars and product instructions

Loading traverses

Loading traverse for safe lifting and transporting of cable drums. With chain suspension and 2 adjustable steel rope suspensions, suitable for drums acc. table below. Further dimensions are available on short call.

- Expanding construction advantages:
- Telescoping small dimensions for stocking, lightweight.
- Steel profile construction galvanized, complete with rope suspension, without quick-lifting hooks.

Code	Type	Cap.	Drum width	Drum-D	L max.	L min.	kg
