

AFG-2300-...

CAT'ARC multi-risk switching jacket to protect against an electric arc

Application :

- Especially designed to be worn on top of the usual clothing, for short operations (eg. power-breaking operations, live working on batteries).
- Offers the perfect protection for Live Working.

Features :

- Adjustable hood for a better protection of the head and the neck in case of higher risk, to be worn with a visor or a helmet.
- A velcro® central fastening along the entire length: easy to open and close.
- A back length of 121 cm to ensure an efficient protection of the operator down to the knees.
- Pictograms of the standards clearly visible on the left sleeve.
