

CLYDESDALE**Powering the Future****CLY 560 14-2xx****Class 0, 14" Latex Insulating glove, Orange / Black****CLY 560 14-2xx**

Ideal for use by electricians and other workers who come into contact with live or potentially live cables / circuits.

Arguably the highest quality latex-insulating glove ever produced, using a combination of traditional latex dip and cement dip technologies.

Colour Orange inner and black outer layer for clearer identification of damage to glove's surface during inspection.

Sizing "xx" Available in sizes 08 through 11 (add suffix into part number)

Marking The glove is marked in accordance with EN 60903, stating mark of the independent CE approval body, size, manufacturer's name and month / year of manufacture. It is also marked with the CE logo and the double triangle image of the IEC.

Temperature Resistant to temperatures +55°C to -40°C

Flame Retardancy As per requirements of EN 60903, will self extinguish any flame

Packaging Supplied as a pair contained within a white plastic bag bearing care instructions. Multiple Bags may be supplied in specifically designed cardboard box.

Storage Gloves should be stored in their packaging. Care should be taken to ensure that gloves are not compressed, folded, or stored in proximity to sources of heat, light or ozone. It is desirable that the ambient temperature be between 10 °C and 21 °C.

Class	Length	Part No.	Test Voltage AC (rms)	Working Voltage AC (rms)	Colour
